## SWEEPING VICTORY FOR REPUBLICANS

### LARGE VOTE POLLED BY REPUBLICANS IN CHARLEROI

Showing.

#### RECORD HERE FOR TENER

Popularity Of Local Man In  
Home Town Is  
Demonstrated.

A large vote was polled in Charleroi yesterday, the total number for Presidential electors in the three precincts being 1072. The Republican ticket was favored throughout, the candidates of this party winning out here without a single exception. The vote for Mr. Tener was a record. He carried all three precincts by a majority never before equaled by a candidate for any office in this place.

The tickets for Presidential and Vice Presidential electors were split some and the totals in the following table is not in accordance with the figures from each precinct. In the first precinct the Republicans gave Jones 2 more votes than the rest and in the second precinct ten of the Republican electors were given 195 and twenty-four, 196. The Democrats gave McCullen, 6, in the second precinct, and 75. The smaller figures are taken from the precincts and the larger figures all votes cast for the

### DRUGGIST OF FAYETTE CITY IS SENTENCED

Joseph M. Steele, the Fayette City druggist who has been before Fayette county courts on two previous occasions charged with illegal liquor selling, was called for the third time, Tuesday, and after a short hearing was sentenced to serve one year in jail besides paying costs and a fine of \$500. The sentence, imposed Tuesday, was on his plea entered Sept. 7, that plea being made on the sale of malt which Steele contended he did not know was considered illegal goods. Since that sentence was continued the county detectives learned that Steele had received shipments of liquor and an investigation resulted in bringing him into court on a process issued by District Attorney D. W. Henderson. Steele was arrested a week ago. In court, Tuesday, he was represented by Attorney B. F. Sterling of Uniontown and Attorney Vernon Hazard of Washington county. District Attorney D. W. Henderson stated that there had been complaints regarding Steele's continued liquor business and an investigation showed that he had had large quantities shipped to his place of business since September 7.

#### HON. JOHN K. TENER.

Elected To Congress By Large Majority.

### MR. TENER WINS OUT FOR CONGRESS IN THE TWENTY-FOURTH DISTRICT

John K. Tener, of Charleroi, was elected Representative to Congress from the twenty-fourth district yesterday by the voters, who gave him a large plurality. His own county gave him the largest vote, with Lawrence following closely. Beaver gave him the smallest vote of any county in the district, but he was tendered a nice majority in that place.

It is stated that there was a better vote polled in the districts than ever before, and everything went Republican. Washington county was Mr. Tener's stronghold, he getting a plurality of about 4184 in this county. Charleroi was especially strong for him giving the popular home candidate

the largest vote ever tendered a single candidate at a general election in this place, his plurality in this place being 570. Akens, the Democratic candidate made the next best run with a total in the three precincts of 153 votes. Lawrence county went Republican, by a plurality of about 3,300. Taft ran perhaps a little over this mark and Mr. Tener had about the same plurality. In his home town of New Castle, Mr. Akens had about the normal vote.

Beaver county gave Mr. Tener a plurality as far as can be learned 1,500. The voters in this county were badly split and the various boards had trouble in counting them.

### BOND ISSUE AT NORTH CHARLEROI NOT FAVORED BY THE VOTERS

The proposed bond issue was defeated at North Charleroi yesterday by a vote of 67 to 45. The amount was \$5,000, and was to be used for street and various improvements.

North Charleroi went Republican, and like Charleroi gave Mr. Tener the greatest vote of any man on the ticket. There he carried the place

by a plurality of 67 votes, receiving 96 to his nearest opponent, Mr. Aken's, 29. For assembly Bentley was the favorite getting in all 59 votes. Holland was next with 76 and Carothers followed with 67. For President there were 90 to 45 for the Republican electors.

Considerable goods was found in his cellar. The defense argued that Steele had not been guilty of any violations since the action of Sept. 7. Steele admitted receiving the goods in question but declared that the only whiskey sold has been on prescriptions of physicians and strictly in accordance with the law. Taking in consideration the amount of goods on hand when Mr. McBeth made the investigation the defense contended that the receipts did not indicate too large sales for a legitimate business. Steele was questioned closely relative to his sales. He said there were four physicians in Fayette City and what ever liquor he had sold had been with proper authority, and that he had not exceeded the rights of druggists everywhere.

The court stated that Steele had broken his word relative to the disposition of his business, he having said in September that he was then selling out and would go west. Steele said he still wanted to sell out but had been unable to get a proper price.

Following the testimony Attorney Hazard made a motion to withdraw the plea of guilty made at September court but this was denied by the court. Steele was then sentenced to costs, \$500 fine and one year to jail.

Following the sentence the court stated that there had been many complaints from Fayette City and he wanted a thorough investigation of conditions there and all found guilty of violating the law brought into court, where every guilty one, regardless of rank or position, would be punished. The court announced from the bench that it was the intention to see that the laws are enforced and that Fayette City must be investigated thoroughly.

### IS CALLED TO THE DOOR AND STABBED

Zollarsville, No. 4.—To be called to the door of a restaurant and receive a mortal stab at the hands of unknown assassins was the fate of John Mayor, a well known and respected foreign resident of West Zollarsville last night. Although the murderers of the man are not known definitely suspicion is strongly attached to Antonis Leonardi and another man whose name is not known.

Both men fled immediately upon striking the knife deep into Mayor's body. Neither has been apprehended although a man hunt was immediately inaugurated for the fiends. The deed is supposed to have been the result of a drinking bout.

### REPUBLICANS SUCCESSFUL IN ASSEMBLY TICKET

#### WILLIAM J. BRYAN.

Defeated Candidate.

#### Society Begins Operations.

What is purported to be The Black Hand society has begun operations in the West Newton vicinity. Giuseppe Leone received a registered letter from Pittsburg, demanding that he place \$500 in an old shaft between the mining hamlets of Graztown and Blackburn. The letters said that failure to do as directed would mean death. The cross and dagger, the dread sign of the Camorra, was the only signature. Leone, who had recently returned with his family from Italy, is worried almost sick over the epistle. He knew that he had enemies and that it was rumored that while in Italy last spring he received a legacy of several thousand dollars. Leone declared that after paying the expenses of his family to this country, he was left without any funds.

### BURGLARS CAUGHT TRYING TO ENTER A RESIDENCE

Last night two burglars were caught in Monongahela as they were trying to enter the home of Mr. and Mrs. William McGregor on Main street, near Second. They are, both Slavs, one of them being 23 years of age and the other twenty. Their names as they gave them are Mike Miller and Mike Brody. The two were locked up over night and will have a hearing this afternoon before Alderman Ellwood.

The men were discovered at about three o'clock this morning by Mrs. McGregor, who dressed and notified two girls who roomed at the place. They were at the time working at a back window cutting the glass. Mrs. McGregor went out the front door and secured a policeman then with them returned to the house. The men were found working and easily captured. There is little doubt but that they will be convicted as, it will be seen, the evidence is much against them. They will likely plead guilty.

Arthur K. Odert after a few days visit with his parents here left this morning for Pittsburg, where he is a student at the University of Pittsburg.

Bentley, Carothers And Holland Get The Highest Vote.

#### RIVER SECTIONS STRONG

Charleroi Monongahela And Donora Give Above Men Nice Plurality.

The Republicans were victorious in this county yesterday in the various tickets. Perhaps the most interesting fight was for assembly. Charles A. Bentley, C. E. Carothers and John B. Holland, the nominee for assembly on the Republican ticket were elected. For Commissioner J. A. Berry and Thomas Hill were the highest, and are pronounced winners. For coroner, James T. Heffran is said to have carried the county by a large majority. H. F. Ward is the choice for Prothonotary. Cyrus Morrow will be the next Register of Wills.

The Socialist vote as well as that for the Prohibition ticket will be the largest in the history of the county. The result shows that the Republican legislative ticket was practically defeated outside the strong Republican towns of Monongahela, Donora, Charleroi and McDonald. In Washington the vote for Republican candidates was big.

### "FINEST" SHOW AT THE STAR THEATRE

At the Star theatre this week is in reality being played the finest bill that has appeared this season. It is headed by the four Braggers, who have a reputation as among the best. Their act is a clean musical one to which there is a little comedy. Each of this four are fine singers and they put up a splendid show. The other act of John S. Lyon, is one of the best that appears on the circuit. He is a quick change artist of no mean ability, and produced a performance that was enjoyed by all who saw him last night and Monday night. Miss Marion Laughlin had a new song that took well, and the pictures were excellent.

### ANOTHER TROLLEY LINE FOR DONORA

It has been stated on authority that Donora that construction on the proposed street car line which will eventually connect West Newton with Donora has been started. This line will be of inestimable benefit to both towns, as well as other places along the route. It is to be seen that little Donora which has for so long been without trolley outlet will in the very near future have the best of services with other town.

A box social will be held on Friday night of this week at the Sampson school house in Carroll township. The proceeds will go for the benefit of the Union Sunday school of Eldora. All are invited.

## Taft and Sherman.

The Republicans have annexed  
another victory to their long string,  
and have placed another President and  
Vice President in office, in the persons  
of William Howard Taft, and James  
Scholarcraft Sherman. These two  
able leaders through the decision of  
the voters won over the Demo-  
cratic ticket which was supported by  
William Jennings Bryan and John W.  
Kerns. The principals of the Repub-  
licans triumphed over the doubtful  
platform endorsed by the Democrats  
and Mr. Taft was winner by a large  
plurality. The electoral vote of  
Republican candidate will surpass that  
of the Democrat by many votes, the  
nearly as many as Bryan received.  
The obligation left on  
Republican legislation and adminis-  
tration is well defined. It must con-  
tinue in good faith the work so  
aggressively begun. As Mr. Taft has  
distinctly said in his campaign utter-  
ances that will during the next four  
years involve an energetic and per-  
sistent enforcement of the laws more  
saintly than the enactment of new  
legislation. Inveterate offenders in  
the line of corporate abuses must be  
certain of exemplary punishment.  
Corporate business confined within  
legal and honest boundaries may be  
sure of fair treatment. With that  
assurance the credit of the Nation  
will be maintained, business pros-  
perity will recuperate and the general  
welfare flourish.

## Examinations in Schools.

Superintendent Wright of the local  
schools does not favor the idea of  
holding examinations in High School,  
for the purpose of arriving at the con-  
clusion as to whether pupils are eligi-  
ble to promotion, according to a state-  
ment made by him in an address at  
the Round Table meeting of the  
principals at Washington Saturday.  
Mr. Wright considers that the teach-  
ers and principals are able to judge of  
the work being done in the schools,  
and that this should be used rather  
than the method employed at present.  
There are some strong arguments in  
favor of the new method suggested  
by Mr. Wright and it would not sur-  
prise us if in the future this would  
be adopted by various schools in the  
country. The teachers and principals  
keep grades of the work done by their  
pupils daily, and this is the true way  
of learning of what the pupils are  
capable. The examination should

J. FREW, 404-6 Fallowfield Avenue,  
CHARLEROI, PA.

As Mr. Wright says he only a test a  
not a factor in determining when a  
pupil is fit for promotion. In the  
schools here formerly was in vogue the  
yearly examinations and as a result  
there was not the success and high  
grades in the various studies that are  
shown now under the "finals" every  
three months. If the elimination of  
the yearly examinations and the  
creation of those which come every  
third month was productive of good in  
our schools why should not the elimi-  
nation of them entirely mean a better  
all round system and higher  
grades from all pupils. Let the ex-  
amination be given as a test but not  
as a factor in promotion.

## Electric Sparks.

If a man is honest you can always  
tell it by the way he doesn't talk  
about it.

Some young men seem to think it  
better to have loved and lost than  
never to have loved at all.

It isn't safe to judge by appearances.  
The man who acts ferocious abroad  
may be as meek as a lamb at home.

Some men seem to enjoy the short  
end of it occasionally so that they  
will have an excuse for registering a  
kick.

The man who is not a good loser  
has no business in politics, and the  
people have a fashion of putting such  
persons out of business.

No man is bigger than his party,  
and those who think they are sooner  
or later come to grief.

Seeing that Mr. Morse, the ice  
king, piled up \$22,000,000 for himself,  
maybe it's a mercy, as he admits,  
that he had no knowledge or bank-  
ing.

Noticed a roorback or two, but no  
one has reported finding a mare's nest  
this season.

There can be no doubt of the rapid-  
ity with which our Indian wards are  
becoming civilized when a full blood  
Sioux shoots himself because his  
mother-in-law butts into his domestic  
affairs.

No wonder people complain of the  
price of meat. A New York butcher  
has just died worth \$7,000,000.

Doctors and scientists are now un-  
certain whether electrocution kills the  
murderers or not. It seems rather  
late in the day to agitate this ques-  
tion. None of the criminals who  
have been sent to the chair have made  
any trouble since anyhow.

The word "news" originated in old  
custom of placing on newspapers the  
initial letters of the cardinal points  
of the compass.

The football girl goes "yip, yip,  
yip."

When her heroes score,  
And the next day suffers from the pip,  
And, gee, her throat is sore!

How is a man who gets the pearl-  
hunting craze and spends all his meal-  
times in cafes ordering oysters to be  
classed—as a lapidary or a Nimrod?

Yesterday a prominent Democrat of  
this place who is noted for the fre-  
quency for which he runs for office  
and never gets elected, was seen on  
the street yesterday afternoon clap-  
ping his hand and delightedly exclaim-  
ing that "we've got it." Wonder if  
he wasn't just a little disappointed  
this morning when he learned that  
Bryan had been eclipsed by strong  
man Taft.

## Crude Oil as a Disinfectant.

Some time ago we ordered a barrel  
of crude petroleum principally for the  
hogs, writes R. L. Dean in National  
Stockman. We have tried it in a num-  
ber of ways. As a disinfectant it ex-  
ceeds the refined product in the point of  
not evaporating so quickly, but being  
thicker it is not so easy to apply. It  
does not work well in the small sprin-  
kling can. It somewhat disfigures the  
appearance of a hog for a week or two  
if he be light colored. Yet it does not  
burn the skin as kerosene sometimes  
does. It is excellent about the poultry  
house, especially when painted on the  
roosting poles. We believe the crude  
oil is a good tonic for the hogs, as we  
noted after sprinkling a few spoonfuls  
on the corn. On the whole, I do not re-  
gard crude oil as indispensable or su-  
perior to other disinfectants.

## Calves in Winter.

The calves should by all means have  
a comfortable winter shed. The shed  
need not be expensive, but should be  
roomy and well ventilated, well drained  
and dry, says Farmers Advocate. A  
dirt floor with a good slope is as  
good as is needed. The floor should be  
well bedded with wheat straw, which  
is the best absorbent obtainable on the  
Kansas farm. The manure should be  
removed often and the floor kept  
sweet. The sheds should be well lighted,  
and a south front is best. A south  
slope is the ideal location. Close the  
shed on the north entirely, but have  
either a big window on the south or  
the shed partly open. Let the calf's  
bed be dry. He can stand a good deal  
of cold if he is kept dry.

## Feeding the Work Horse.

Do not overlook the necessity of  
varying the ration of the work horse,  
says Farmers Advocate. There are  
farmers who feed their horses ten to  
twelve ears of corn three times a day,  
together with prairie hay and pastur-  
age, and the horse seems to do fairly  
well, but the horse requires a balanced  
ration, as does the man himself or the  
dairy cow. Unless the horse gets lib-  
eral pasture he will not obtain suf-  
ficient muscle and bone producing feed.  
The horse should have some bran, oats  
and alfalfa hay. These are the com-  
mon feeds of the farm from which the  
horse can be supplied with bone and  
muscle. These will also add palat-  
ability, which is a thing worthy of con-  
sideration.

## Corn For Poultry.

Several investigators at experiment  
stations in poultry feeding experi-  
ments to determine the relative feed-  
ing value of wheat and corn were  
much surprised to find, when their an-  
nual summary was made, that the  
heavily corn fed hens laid not only a  
greater number of eggs than those fed  
heavily on wheat, but that the eggs  
were larger and heavier and the hens  
were in much better condition at the  
end of the test. This experiment has  
been repeated many times, but the  
experiment was not needed to prove  
to practical men that corn, meaning  
good, sound, hard yellow Indian corn,  
is a particularly valuable feeding  
grain for fowls.—Poultry Journal.

## Corn as a Forage Crop.

Experiments with corn have not  
shown it to be one of the best crops  
for pasturage for dairy stock. It fur-  
nishes pasturage earlier than sorghum  
and may be used before that crop is  
available and after rye or oats and  
peas are gone. It does not spring up  
rapidly after being eaten down. It is  
drilled in with a press drill as early  
in the spring as is safe, using two bush-  
els of seed per acre. It should be al-  
lowed to grow eighteen inches or two  
feet high before being pastured. There  
is always considerable loss from tramp-  
ling. For winter roughness corn is  
not so good as some of the other crops.  
—Nebraska Station Bulletin.

## A Curse to Agriculture.

From time immemorial there has  
been a mania among farmers to buy  
more land. The idea has prevailed  
that to be successful one must own  
large areas of land. Until recently it  
has not occurred to the farmer that a  
few acres well tilled will produce  
more than double the amount poorly  
cultivated or cared for. There is but  
one kind of farming that requires  
much land in order to attain success.  
I refer to live stock farming, and even  
with this it is possible to so handle  
our pasture lands and meadows that  
100 acres will produce from twice to  
four times as much as many now do.  
—W. U. Zink in National Stockman.

## Briefs of the County

Coal Center, Nov. 3.—Miss Char-

place. She took sick about three  
weeks ago while on a visit here, with  
acute indigestion and grew continually  
worse until her death this evening.

Miss Phillips was about 24 years  
of age and was a very popular young  
lady of Canonsburg. She was a mem-  
ber of the First Presbyterian church,  
of that place, and is a graduate of  
Canonsburg High school in the class  
of 1903. Besides the parents, the  
following brothers and sisters survive:  
Mrs. Guiser, of this place; Mrs. J.  
Vance Donaldson, of Canonsburg;  
James, of New Kensington; Joseph,  
of Swissvale, and Oliver, William  
and George, at home in Canonsburg.

No funeral arrangements have been  
made but the body will be taken to  
the home in Canonsburg.

know the value of pure ale in dietetics.

If a patient lacks vitality or nerve-force, pure ale at meal time is the usual prescription.

The reason is because malt and hops are foods for both nerves and blood.

But the ale must be pure to be of benefit. We guarantee Charleroi Brewery Ale to be of absolute purity. All its virtues come straight from the malted field-barley and best Bohemian hops.

**Monkeys Like Scrapping.**  
"Monkeys are in a class by themselves," said the circus man. "If one of them has red hair he is sure to be a dandy scrapper. The best fighter is always the leader. They hang together and bow and scrape before the boss just like a good many people. Monkeys with red faces and flat heads will whip the life out of those smaller than they are, but will run like the wind when it comes to an even break. A monkey riot is a funny spectacle. Even in the same cage you will find groups herded together as if there was some class distinction and the lines were drawn tightly. If two of the big ones come together in a row the others generally stand off and let them have it out, but if any of the little ones get to scrapping then the father and mother are apt to mix in, and the next step is a general row. We separate them by locking up the den so that they cannot get any peanuts from the crowd and hold back their meals. This plan puts them on their good behavior for awhile at least. The monkey likes to eat and likes to be noticed."

**Slightly Mixed.**  
They had just set up house-keeping and were working on the plan of economy. The bathtub needed a coat of varnish. He promised to attend to it if she would order the varnish. "You'll find the varnish in the closet with the groceries, dear," she said a day or so later. "And the can opener in the knife drawer." He opened the can and, according to his contract, applied the coat of varnish and then left it to dry. The soap for dinner that day had to be abandoned, for somehow it possessed a peculiar paint shop odor that was nauseating. After dinner he took her to inspect his work on the bathtub. Now that it had dried it had a certain unnatural appearance. The top and sides were streaked, and here and there little lumps clung to it. "The man said that was the best varnish," she explained, taking up the can of varnish for an examination. "but--why, dear, you have varnished the bathtub with the ox tail soup!" "Then it was the varnish we ate, dear," he added, horror stricken. --Lippincott's.

**A Model Hotel "Boots."**  
It was in a Dublin hotel, and as I closed the bedroom door, says a writer in the Manchester Guardian, I noticed that the end of one of my boot laces was inside the room, the boot to which it was attached having been placed as usual outside. When I awoke next morning the boot lace end was still there, and I opened the door expecting to find that the boots had not been cleaned, but I was wrong. A very careful hotel servant, a very model among "boots," had found the lace tightly gripped by the door and rather than disturb me had carefully removed it from the lace holes and carried away the boot. Presently I heard a quiet noise outside the door. The model boots had brought my boots back again and was industriously retreating that one which he had unlaced.

**Cheese In the Middle Ages.**  
Cheese must have been a rather dear or scarce article of food in 1502, for it is recorded in the "Black Books" of the Honorable Society of Lincoln's Inn that at Easter term, 1502, it was agreed by the governors and benchers this term that if any one of the society shall hereafter cut cheese immoderately at the time of dinner or supper or shall give cheese to any servant or to any other or shall carry it away from the table at any time he shall pay 4 pence for each offense. The butlers of the society shall present such defaulters weekly under pain of expulsion from office. --Law Times.

**Her Test.**  
"When a young man proposes you should always be careful and test his love," cautioned the conservative chaplain. "But I go one better, auntie," twittered the pretty girl. "Do you see this lay bottle?" "Yes. Does it contain perfume?" "No; it contains acid. I test the engagement ring."

**Not Very Funny.**  
"I did my best to be entertaining," said the young man in a voice of sorrow. "Did you succeed?" "I'm afraid not. I recited Hamlet's soliloquy. She looked at me reproachfully for several seconds and then exclaimed, 'I don't think that's very funny.'" --London Telegraph.

**His Conscience.**  
"He's forever prating about what his conscience tells him. What does his conscience tell him, anyway?" "Apparently it usually tells him what awful sinners his neighbors are." --Catholic Standard and Times.

**Where She Gets Her Ideal.**  
She--I wonder if you are just the kind of man I want. He--What kind of man do you want? She--I can hardly describe him to you. He--Don't try. What's the name of the book? --St. Louis Post-Dispatch.

**To Hold Him.**  
Nan--That's a beautiful solitaire Dick gave you. I wonder if you know what a fickle young man he is? Fan--Indeed I do! That's why I made him give me such an expensive one. --Chicago Tribune.

**A Sad Break.**  
"Our credit man made a bad break yesterday." "What was it?" "He told a dumb man that his word was as good as his bond." --Detroit Free Press.

**Why He Called.**  
"You advertised that you had found a pocketbook, I believe?" he asked the man who had come to the door in answer to his ring. "I did." "You say it contained a sum of money?" "Yes." "A very large sum of money, in fact?" "Yes." "And that the owner could have the same by naming the sum found and describing the pocketbook?" "Yes. Go on." "That is all I wished to ask." "But you will have to give a description of the purse you lost before you can put in a claim." "I lost no purse." "You didn't?" "No, sir." "Then why have you called?" "Merely to see what a man looks like who will find a very large sum of money and then advertise the fact in the papers instead of hiding it down cellar. Good day, sir." --Judge's Library.

**A Critic's Evasion.**  
It is risky to give one's honest opinion about a man's horse or dog, a house designed by himself or a picture which he values highly. He who gives the opinion stands on a slippery place, and should the judgment be unfavorable he will slide far from the man's esteem. Fusell, the eccentric artist and professor of the Royal academy, was invited by a nobleman to see a painting of which he was the proud owner. Fusell went, taking a pupil with him. The painting was shown by the nobleman himself. The artist examined it and exclaimed, "Extraordinary!" The nobleman, greatly pleased at the ejaculation, lauded the picture to the skies pointed out its beauties, and Fusell cried: "Extraordinary! Extraordinary!" On their way home the pupil said: "Mr. Fusell, I don't think much of that picture. What did you mean by 'extraordinary'?" "Extraordinarily bad," was the reply of the artist, who had not cared to offend a lord who might become a patron.

**More Small Competitors.**  
Weary Walker--I see 500 more men has been 'trown out of work. Tired Traveler--Geel! Dere's gettin' to be too much competition in our business. --Puck.

**The Eagle's Plaint.**  
This jaunty shahin makes me sigh With envy that is great. 'Tis true that I know how to fly, But I can't advise. --Washington Star.

### Making More Than a Living

Nearly every man who works steadily makes more than a living. During these slow times the men who have saved something appreciate what it is to have something laid away for a rainy day. A few cents a day soon counts up, and when savings are placed in a bank at a tidy interest the sum soon grows to proportions that make it a safeguard against want when work is not plentiful. Figure up how much more than a living you are making now, and place the difference in this bank. Four per cent. interest paid in savings department.

### Splendid Dramatization

The splendid dramatization by Lem B. Parker of Bertha M. Clays' delightfully interesting book, "Thorns and Orange Blossoms," is drawing full houses en-tour. The play, like the novel, is full of true to nature interest that delights the feminine heart and the large proportion of women in the audience watch the delineation of the plot in which true love culminates in marriages, is then turned to misery by a designing one, but in the final act triumphs. The drama will be presented by a strong and unusually well balanced cast, which has as its leading lady the talented young woman, Miss Lucile Gardiner. We will have "Thorns and Orange Blossoms" at the Monessen Opera House Thursday Nov. 5th. Seats on sale at Light's Drug store, Donner Avenue, Phone 50-R. Prices 25, 50, 75c. Boxes \$1.00.

### SCARED THE ROBBERS.

Odd Incident in England in the Eighteenth Century.  
For a time during the eighteenth century in England there was a lull in the robbery industry owing to an odd incident. Shortly after the execution of an English burglar named Elliston a curious communication purporting to have been written by him was put into circulation. "Now, as I am a dying man," it ran, "I have done something which may be of good use to the public. I have left with an honest man—the only honest man I was ever acquainted with—the names of all my wicked brethren, the places of their abode, with a short account of the chief crimes they have committed, in many of which I have been the accomplice and heard the rest from their own mouths. I have likewise set down the names of those we call our setters, of the houses we frequent and all of those who receive and buy our stolen goods. I have solemnly charged this honest man and have received his promise upon oath that whenever he hears of any rogue to be tried for robbery or housebreaking he will look into his list and if he finds there the name of the thief concerned to send the whole paper to the government. Of this I here give my companions fair and public warning and hope they will take it." It is said the hint was so effectual that for a long time pickpockets and burglars in that part of England went into panic stricken retirement. And, this being so, it is just as well they did not know that the letter was a clever forgery, the work of that prince of wits and humorists, Dean Swift.—New York Tribune.

### Climatic Changes.

There is plenty of evidence of the very best sort which goes to prove that not only Europe and North America, but the lands situated within the arctic circle, must have enjoyed a tropical climate. The numerous fossil remains found in those regions are those of plants and animals which, according to the present state of our knowledge, must have lived under conditions now found only in the equatorial belt. Nothing is clearer than the fact that the polar cold is steadily gaining on the temperate and tropical zones and that eventually the land will be all ice fields.

### Donald Knew.

Margaret, aged ten, was a beginner in history. "Mamma," she asked, "what does 'behead' mean?" "To cut off a man's head, dear." "There was a moment of silent study, then another question. "What does 'defeat' mean, mamma?" "Little Donald, aged four, was interested. "I know, mamma," was his logical conclusion. "Defeat means to cut a man's feet off."—Delineator.

### Very Different.

"In the olden days a reformer was liable to be burnt at the stake." "Yes, and now we put him on the lecture platform and give him 50 per cent of the gross receipts!"—Washington Star.

Talking and eloquence are not the same. To speak and to speak well are two things.—Ben Jonson.

### CURES CATARRH

John W. Carroll, Will Furnish The Medicine Free in Every Case Where They Fail to Cure Catarrh.

Neglect or pessimism we believe is the greatest enemy the public have to contend with when applied to the loss or recovery of health. Practically every case of consumption might have been cured if hope had been maintained and proper treatment had been resorted to at the first symptom of the disease. Until the advanced stage is reached, consumption is curable. Catarrh is responsible, we believe, for every case of consumption. It is about Catarrh we want to talk to you today, incidentally consumption, since the two are so closely allied.

We have medicine made from the prescription of one of the most successful catarrh specialists known. This medicine has a record of 98 per cent of cures, and we believe it is positively without an equal. We are so satisfied that we are right, that we will supply the medicine free in every instance where it is used according to directions for a reasonable length of time and fails to cure and give satisfaction in every particular. We want every one in Charleroi to try this medicine at our risk. There are no exceptions in feasibility attached to our offer. We put the matter about no obligation to us whatever.

The medicine we want you to try is Rexall Mucu-Tone. It is a catarrh remedy that goes direct to the seat of trouble. It is carried by the blood to every part of the system. It seeks out and destroys the germs or parasites which cause Catarrh. It purifies and enriches the blood, tones up the mucous membrane and heals the tissues that were ravaged by the catarrhal parasite, and brings about a condition of health and strength that prevents the germs of consumption from every getting a start. Besides this, Rexall Mucu-Tone is a wonderful appetizer, digestive aid and flesh builder. Its good effects are felt from the very first dose. It is one of the largest and most satisfactory selling medicines that we have ever had anything to do with. We know so much of the great good that it has done that we personally back it up with our reputation and money, which fact should be ample guarantee to satisfy anybody.

Rexall Mucu-Tone comes in two sizes, 50c, and \$1.00. We urge you to try it. John W. Carroll, Charleroi, Pa.

### TWO SOCCER TEAMS BELOW THEIR STANDING

While all the teams in the new Monongahela Valley Soccer league have been drawing well this season, there has been two big disappointments to the followers of the game, McKeesport, which is one of the best soccer towns in the valley, still hangs to the tail end without a game to her credit. Charleroi, the star Monongahela team that captured three cups in the old Ohio and Pennsylvania leagues, has been unable to get above fourth place, although they have Hynds, Brooks and all the other old-time stars in their lineup.

### Ladies Entertained.

The ladies of Christ Lutheran church were entertained most royally by Mrs. W. H. Schuyler at the Grand Hotel of Monessen, yesterday afternoon in their monthly "Kensington." About 25 ladies were present and spent the afternoon of election day very pleasantly. This was one of the enjoyable days in the month for the ladies of this church. Dainty refreshments were served.

Washington, Nov. 3.—Announcement has been made that the Rev. Dr. W. A. McConnell, for 3 years pastor of the Mt. Pleasant United Presbyterian church at Hickory, will resign on account of failing health. The pastorate is the only one ever held by Mr. McConnell.

## SWEEPING VICTORY FOR REPUBLICANS

### LARGE VOTE POLLED BY REPUBLICANS IN CHARLEROI

Democrats and Prohibitionists  
Also Make Good Showing.

#### RECORD HERE FOR TENER

Popularity Of Local Man In  
Home Town Is  
Demonstrated.

A large vote was polled in Charleroi yesterday, the total number for Presidential electors in the three precincts being 1672. The Republican ticket was favored throughout, the candidates of this party winning out here without a single exception. The vote for Mr. Tener was a record. He carried all three precincts by a majority never before equalled by a candidate for any office in this place.

The tickets for Presidential and Vice Presidential electors were split some and the totals in the following table is not in accordance with the figures from each precinct. In the first precinct the Republicans gave Jones 2 more votes than the rest and in the second precinct ten of the Republican electors were given 195 and twenty-four, 196. The Democrats gave McCollen, 6, in the second precinct and the rest 75. The smaller figures are taken from the precincts and the larger figures all votes cast for the

### DRUGGIST OF FAYETTE CITY IS SENTENCED

Joseph M. Steele, the Fayette City druggist who has been before Fayette county courts on two previous occasions charged with illegal liquor selling, was called for the third time, Tuesday, and after a short hearing was sentenced to serve one year in jail besides paying costs and a fine of \$500. The sentence imposed Tuesday was on his plea entered Sept. 7, that plea being made on the sale of malt which Steele contended he did not know was considered illegal goods. Since that sentence was continued the county detectives learned that Steele had received shipments of liquor and an investigation resulted in bringing him into court on a process issued by District Attorney D. W. Henderson. Steele was arrested a week ago. In court, Tuesday, he was represented by Attorney B. F. Sterling of Uniontown and Attorney Vernon Hazzard of Washington county. District Attorney D. W. Henderson stated that there had been complaints regarding Steele's continued liquor business and an investigation showed that he had had large quantities shipped to his place of business since September 7.

HON. JOHN K. TENER.

Elected To Congress By Large Majority.

### MR. TENER WINS OUT FOR CONGRESS IN THE TWENTY-FOURTH DISTRICT

John K. Tener, of Charleroi, was elected Representative to Congress from the twenty-fourth district yesterday by the voters, who gave him a large plurality. His own county gave him the largest vote, with Lawrence following closely. Beaver gave him the smallest vote of any county in the district, but he was tendered a nice majority in that place.

It is stated that there was a better vote polled in the districts than ever before, and everything went Republican. Washington county was Mr. Tener's stronghold, he getting a plurality of about 4184 in this county. Charleroi was especially strong for him giving the popular home candidate

the largest vote ever tendered a single candidate at a general election in this place, his plurality in this place being 570. Akens, the Democratic candidate made the next best run with a total in the three precincts of 153 votes. Lawrence county went Republican, by a plurality of about 8,300. Taft ran perhaps a little over this mark and Mr. Tener had about the same plurality. In his home town of New Castle, Mr. Akens had about the normal vote.

Beaver county gave Mr. Tener a plurality as far as can be learned 1,500. The voters in this county were badly split and the various boards had trouble in counting them.

### BOND ISSUE AT NORTH CHARLEROI NOT FAVORED BY THE VOTERS

The proposed bond issue was defeated at North Charleroi yesterday by a vote of 67 to 45. The amount was \$5,000, and was to be used for street and various improvements.

North Charleroi went Republican, and like Charleroi gave Mr. Tener the greatest vote of any man on the ticket. There he carried the place

by a plurality of 67 votes, receiving 96 to his nearest opponent, Mr. Akens's 23. For assembly Bentley was the favorite getting in all 51 votes. Holland was next with 76 and Carothers followed with 67. For President there were 90 to 48 for the Republican electors.

Considerable goods was found in his cellar.

The defense argued that Steele had not been guilty of any violations since the action of Sept. 7. Steele admitted receiving the goods in question but declared that the only whiskey sold has been on prescriptions of physicians and strictly in accordance with the law. Taking in consideration the amount of goods on hand when Mr. McBeth made the investigation the defense contended that the receipts did not indicate too large sales for a legitimate business. Steele was questioned closely relative to his sales. He said there were four physicians in Fayette City and what ever liquor he had sold had been with proper authority, and that he had not exceeded the rights of druggists everywhere.

The court stated that Steele had broken his word relative to the disposition of his business, he having said in September that he was then selling out and would go west. Steele said he still wanted to sell out but had been unable to get a proper price.

Following the testimony Attorney Hazzard made a motion to withdraw the plea of guilty made at September court but this was denied by the court. Steele was then sentenced to serve 180 days and was sent to jail.

Following the sentence the court advised that there had been many cases

plaints from Fayette City and he wanted a thorough investigation of conditions there and all found guilty of violating the law brought into court, where every guilty one, regardless of rank or position, would be punished. The court announced from the bench that it was the intention to see that the laws are enforced and that Fayette City must be investigated thoroughly.

### IS CALLED TO THE DOOR AND STABBED

Zollarsville, No. 4.—To be called to the door of a restaurant and receive a mortal stab at the hands of unknown assassins was the fate of John Mayor, a well known and respected foreign resident of West Zollarsville last night. Although the murderers of the man are not known definitely, suspicion is being directed to Leonard and another man whose name is not known.

Both men fled immediately upon striking the knife deep into Mayor's body. Neither has been apprehended although a man was seen immediately afterwards for the police. The deed is supposed to have been the result of a drinking bout.

### REPUBLICANS SUCCESSFUL IN ASSEMBLY TICKET

WILLIAM J. BRYAN.

Defeated Candidate.

Society Begins Operations.

What is purported to be The Black Hand society has begun operations in the West Newton vicinity. Giuseppe Leone received a registered letter from Pittsburgh, demanding that he place \$500 in an old shaft between the mining hamlets of Graztown and Blackburn. The letters said that failure to do as directed would mean death. The cross and daggers, the dread sign of the Camorra, was the only signature. Leone, who had recently returned with his family from Italy, is worried almost sick over the epistle. He knew that he had enemies and that it was rumored that while in Italy last spring he received a legacy of several thousand dollars. Leone declared that after paying the expenses of his family to this country, he was left without any funds.

### BURGLARS CAUGHT TRYING TO ENTER A RESIDENCE

Last night two burglars were caught in Monongahela as they were trying to enter the home of Mr. and Mrs. William McGregor on Main street, near Second. They are both Slavs, one of them being 23 years of age and the other twenty. Their names as they gave them are Mike Miller and Mike Brody. The two were locked up over night and will have a hearing this afternoon before Alderman Ellwood.

The men were discovered at about three o'clock this morning by Mrs. McGregor, who dressed and notified two girls who roomed at the place. They were at the time working at a back window cutting the glass. Mrs. McGregor went out the front door and secured a policeman then with them returned to the house. The men were found working and easily captured. There is little doubt but that they will be convicted as, it will be seen, the evidence is much against them. They will likely plead guilty.

Arthur K. Odert after a few days visit with his parents here left this morning for Pittsburg, where he is a student at the University of Pittsburg.

Bentley, Carothers And Holland Get The Highest Vote.

#### RIVER SECTIONS STRONG

Charleroi' Monongahela And Donora Give Above Men Nice Plurality.

The Republicans were victorious in this county yesterday in the various tickets. Perhaps the most interesting fight was for assembly. Charles A. Bentley, C. E. Carothers and John B. Holland, the nominee for assembly on the Republican ticket were elected. For Commissioner J. A. Berry and Thomas Hill were the highest, and are pronounced winners. For coroner, James T. Heffran is said to have carried the county by a large majority. E. F. Ward is the choice for Prothonotary. Cyrus Morrow will be the next Register of Wills.

The Socialist vote as well as that for the Prohibition ticket will be the largest in the history of the county. The result shows that the Republican legislative ticket was practically defeated outside the strong Republican towns of Monongahela, Donora, Charleroi and McDonald. In Washington the vote for Republican candidates was big.

### "FINEST" SHOW AT THE STAR THEATRE

At the Star theatre this week is in reality being played the finest bill that has appeared this season. It is headed by the four Bragdon's, who have a reputation as among the best. Their act is a clean musical one to which there is a little comedy. Each of these four are fine singers and they put up a splendid show. The other act of John S. Lyon, is one of the best that appears on the circuit. He is a quick change artist of no mean ability, and produced a performance that was enjoyed by all who saw him last night and Monday night. Miss Marion Laughlin had a new song that took well, and the pictures were excellent.

### ANOTHER TROLLEY LINE FOR DONORA

It has been stated on authority at Donora that construction on the proposed street car line which will eventually connect West Newton with Donora has been started. This line will be of inestimable benefit to both towns, as well as other places along the route. It is to be seen that Little Donora which has for so long been without trolley outlet will in the very near future have the best of services with other town.

A box social will be held on Friday night of this week at the Sampson school house in Carroll township. The proceeds will go for the benefit of the Union Sunday school of Elders. All are invited.

## Taft and Sherman.

The Republicans have annexed  
another victory to their long string,  
and have placed another President and  
Vice President in office, in the persons  
of William Howard Taft, and James  
Schoolcraft Sherman. These two  
able leaders through the decision of  
the voters won over the Demo-  
cratic ticket which was supported by  
William Jennings Bryan and John W.  
Kerns. The principals of the Repub-  
licans triumphed over the doubtful  
platform endorsed by the Democrats  
and Mr. Taft was winner by a large  
plurality. The electoral vote of  
Republican candidate will surpass that  
of the Democrat by many votes, the  
nearly as many as Bryan received,  
altogether. The obligation left on  
Republican legislation and adminis-  
tration is well defined. It must con-  
tinue in good faith the work so  
aggressively begun. As Mr. Taft has  
distinctly said in his campaign utter-  
ances that will during the next four  
years involve an energetic and peris-  
tent enforcement of the laws more  
saintly than the enactment of new  
legislation. Inveterate offenders in  
the line of corporate abuse must be  
certain of exemplary punishment.  
Corporate business confined within  
legal and honest boundaries may be  
sure of fair treatment. With that  
assurance the credit of the Nation  
will be maintained, business pros-  
perity will recuperate and the general  
welfare flourish.

## Examinations in Schools.

Superintendent Wright of the local  
schools does not favor the idea of  
holding examinations in High School,  
for the purpose of arriving at the con-  
clusion as to whether pupils are eligi-  
ble to promotion, according to a state-  
ment made by him in an address at  
the Round Table meeting of the  
principals at Washington Saturday.  
Mr. Wright considers that the teach-  
ers and principals are able to judge of  
the work being done in the schools,  
and that this should be used rather  
than the method employed at present.  
There are some strong arguments in  
favor of the new method suggested  
and it would not be surprising to  
find us if in the future this would  
be adopted by various schools in the  
country. The teachers and principals  
keep grades of the work done by their  
pupils daily, and this is the true way  
of learning of what the pupils are  
capable. The examination should

as Mr. Wright says be only a test, a  
not a factor in determining when a  
pupil is fit for promotion. In the  
schools here formerly was in vogue the  
yearly examinations and as a result  
there was not the success and high  
grades in the various studies that are  
shown now under the "finals" every  
three months. If the elimination of  
the yearly examinations and the  
creation of those which come every  
third month was productive of good in  
our schools why should not the elimi-  
nation of them entirely mean a better  
all round system and higher  
grades from all pupils. Let the ex-  
amination be given as a test but not  
as a factor in promotion.

## Electric Sparks.

If a man is honest you can always  
tell it by the way he doesn't talk  
about it.

Some young men seem to think it  
better to have loved and lost than  
never to have loved at all.

It isn't safe to judge by appearances.  
The man who acts ferocious abroad  
may be as meek as a lamb at home.

Some men seem to enjoy the short  
end of it occasionally so that they  
will have an excuse for registering a  
kick.

The man who is not a good loser  
has no business in politics, and the  
people have a fashion of putting such  
persons out of business.

No man is bigger than his party,  
and those who think they are sooner  
or later come to grief.

Seeing that Mr. Morse, the ice  
king, piled up \$22,000,000 for himself,  
maybe it's a mercy, as he admits,  
that he had no knowledge or bank-  
ing.

Noticed a roofock or two, but no  
one has reported finding a mare's nest  
this season.

There can be no doubt of the rapid-  
ity with which our Indian wards are  
becoming civilized when a full blood  
Sioux shoots himself because his  
mother-in-law butts into his domestic  
affairs.

No wonder people complain of the  
price of meat. A New York butcher  
has just died worth \$7,000,000.

Doctors and scientists are now un-  
certain whether electrocution kills the  
murderers or not. It seems rather  
late in the day to agitate this ques-  
tion. None of the criminals who  
have been sent to the chair have made  
any trouble since anyhow.

The word "news" originated in old  
custom of placing on newspapers the  
initial letters of the cardinal points  
of the compass.

The football girl goes "yip, yip,  
yip."

When her heroes score,  
And the next day suffers from the pip,  
And, gee, her throat is sore!

How is a man who gets the pearl-  
hunting craze and spends all his meal-  
times in cafes ordering oysters to be  
classified—as a lapidary or a Nimrod?

Yesterday a prominent Democrat of  
this place who is noted for the fre-  
quency for which he runs for office  
and never gets elected, was seen on  
the street yesterday afternoon clap-  
ping his hand and delightedly exclaim-  
ing that "we've got it." Wonder if  
he wasn't just a little disappointed this  
morning when he learned that  
Bryan had been eclipsed by strong  
man Taft.

## Crude Oil as a Disinfectant.

Some time ago we ordered a barrel  
of crude petroleum principally for the  
hogs, writes R. L. Dean in National  
Stockman. We have tried it in a num-  
ber of ways. As a disinfectant it ex-  
ceeds the refined product in the point of  
not evaporating so quickly, but being  
thicker it is not so easy to apply. It  
does not work well in the small sprin-  
kling can. It somewhat disfigures the  
appearance of a hog for a week or two  
if he be light colored. Yet it does not  
burn the skin as kerosene sometimes  
does. It is excellent about the poultry  
house, especially when painted on the  
roosting poles. We believe the crude  
oil is a good tonic for the hogs, as we  
noticed after sprinkling a few spoonfuls  
on the corn. On the whole, I do not re-  
gard crude oil as indispensable or su-  
perior to other disinfectants.

## Calves In Winter.

The calves should by all means have  
a comfortable winter shed. The shed  
need not be expensive, but should be  
roomy and well ventilated, well drain-  
ed and dry, says Farmers Advocate.  
A dirt floor with a good slope is as  
good as is needed. The floor should be  
well bedded with wheat straw, which  
is the best absorbent obtainable on the  
Kansas farm. The manure should be  
removed often and the floor kept  
sweet. The sheds should be well light-  
ed, and a south front is best. A south  
slope is the ideal location. Close the  
shed on the north entirely, but have  
either a big window on the south or  
the shed partly open. Let the calf's  
bed be dry. He can stand a good deal  
of cold if he is kept dry.

## Feeding the Work Horse.

Do not overlook the necessity of  
varying the ration of the work horse,  
says Farmers Advocate. There are  
farmers who feed their horses ten to  
twelve ears of corn three times a day,  
together with prairie hay and pastur-  
age, and the horse seems to do fairly  
well, but the horse requires a balanced  
ration, as does the man himself or the  
dairy cow. Unless the horse gets lib-  
eral pasture he will not obtain suf-  
ficient muscle and bone producing feed.  
The horse should have some bran, oats  
and alfalfa hay. These are the com-  
mon feeds of the farm from which the  
horse can be supplied with bone and  
muscle. These will also add palata-  
bility, which is a thing worthy of con-  
sideration.

## Corn For Poultry.

Several investigators at experiment  
stations in poultry feeding experi-  
ments to determine the relative feed-  
ing value of wheat and corn were  
much surprised to find, when their an-  
nual summary was made, that the  
heavily corn fed hens laid not only a  
greater number of eggs than those fed  
heavily on wheat, but that the eggs  
were larger and heavier and the hens  
were in much better condition at the  
end of the test. This experiment has  
been repeated many times, but the  
experiment was not needed to prove  
to practical men that corn, meaning  
good sound, hard yellow Indian corn,  
is a particularly valuable feeding  
grain for fowls.—Poultry Journal.

## Corn as a Forage Crop.

Experiments with corn have not  
shown it to be one of the best crops  
for pasturage for dairy stock. It fur-  
nishes pasturage earlier than sorghum  
and may be used before that crop is  
available and after rye or oats and  
peas are gone. It does not spring up  
rapidly after being eaten down. It is  
drilled in with a press drill as early in  
the spring as is safe, using two bush-  
els of seed per acre. It should be al-  
lowed to grow eighteen inches or two  
feet high before being pastured. There  
is always considerable loss from tramp-  
ling. For winter roughness corn is  
not so good as some of the other crops.  
—Nebraska Station Bulletin.

## A Curse to Agriculture.

From time immemorial there has  
been a mania among farmers to buy  
more land. The idea has prevailed  
that to be successful one must own  
large areas of land. Until recently it  
has not occurred to the farmer that a  
few acres well tilled will produce  
more than double the amount of food  
cultivated or cared for. There is but  
one kind of farming that requires  
much land in order to attain success.  
I refer to live stock farming, and even  
with this it is possible to so handle  
our pasture lands and meadows that  
100 acres will produce from twice to  
four times as much as many now do.  
—W. H. Dean in National Stockman.

## Briefs of the County

Coal Center, Nov. 3.—Miss Char-  
lotte J. Phillips, daughter of Mr. and  
Mrs. John J. Phillips, of North Jeffer-  
son avenue, Canonsburg, died last  
evening at 9:14 at the home of her  
sister, Mrs. William Guiser, of this  
place. She took sick about three  
weeks ago while on a visit here, with  
acute indigestion and grew continually  
worse until her death this evening.  
Miss Phillips was about 24 years  
of age and was a very popular young  
lady of Canonsburg. She was a mem-  
ber of the First Presbyterian church,  
of that place, and is a graduate of  
Canonsburg High school in the class  
of 1902. Besides the parents, the  
following brothers and sisters survive:  
Mrs. Guiser, of this place; Mrs. J.  
Vance Donaldson, of Canonsburg;  
James, of New Kensington; Joseph,  
of Swissvale, and Olliver, William

### All Physicians

know the value of pure ale in dietetics.

If a patient lacks vitality or nerve-force, pure ale at meal time is the usual prescription.

The reason is because malt and hops are foods for both nerves and blood.

But the ale must be pure to be of benefit. We guarantee Charleroi Brewery Ale to be of absolute purity. All its virtues come straight from the malted field-barley and best Bohemian hops.

Charleroi Brewery Ale is a genuine tonic--an aid to digestion.

#### Monkeys Like Scrapping.

Monkeys are in a class by themselves," said the circus man. "If one of them has red hair he is sure to be a leader." This was the first time that the monkeys were ever seen to scrapping. They hang together and bow and scrape before the boss just like a good many people. Monkeys with red faces and flat heads will whip the life out of those smaller than they are, but will run like the wind when it comes to an even break. A monkey riot is a funny spectacle. Even in the same cage you will find groups banded together as if there was some class distinction and the lines were drawn tightly. If two of the big ones come together in a row the others generally stand off and let them have it out, but if any of the little ones get to scrapping then the father and mother are apt to mix in, and the next step is a general row. We separate them by turning on the hose and punish them by locking up the den so that they cannot get any peanuts from the crowd and hold back their meals. This plan puts them on their good behavior for awhile at least. The monkey likes to eat and likes to be noticed.

#### Slightly Mixed.

They had just set up housekeeping and were working on their first day. The bathtub needed a coat of varnish. He promised to attend to it if she would order the varnish. "You'll find the varnish in the closet with the groceries, dear," she said a day or so later, "and the can opener in the kiltie drawer." He opened the can and, according to the contract, applied the coat of varnish and then left it to dry. The soap for dishes that day had to be abandoned, for somehow it possessed a peculiar paint shop odor that was nauseating. After dinner he took her to inspect his work on the bathtub. Now that it had dried it had a certain unnatural appearance. The top and sides were streaked, and here and there little lumps clung to it. "The man said that was the best varnish," she explained, taking up the can of varnish for an examination. "but--why, dear, you have varnished the bathtub with the ox tail soap." "Then it was the varnish we ate, dear," he added, horror stricken. --Lippincott's.

#### A Model Hotel "Boots."

It was in a Dublin hotel, and as I closed the bedroom door, says a writer in the Manchester Guardian, I noticed that the end of one of my boot laces was inside the room, the boot to which it was attached having been placed as usual outside. When I awoke next morning the boot lace end was still there, and I opened the door expecting to find that the boots had not been cleaned, but I was wrong. A very careful hotel servant, a very model among "boots," had found the lace tightly gripped by the door and rather than disturb me had carefully removed it from the lace holes and carried away the boot. Presently I heard a quiet noise outside the door. The model boots had brought my boots back again and was industriously retacing that one which he had unlaced.

#### Cheese In the Middle Ages.

Cheese must have been a rather dear or scarce article of food in 1502, for it is recorded in the "Black Books" of the Honorable Society of Lincoln's Inn that at Easter term, 1502, it was agreed by the governors and benchers this term that if any one of the society shall hereafter eat cheese immoderately at the time of dinner or supper or shall give cheese to any servant or to any other or shall carry it away from the table at any time he shall pay 4 pence for each offense. The butlers of the society shall present such defaulters weekly under pain of expulsion from office. --Law Times.

#### Her Test.

"When a young man proposes you should always be careful and test his love," cautioned the conservative chaplain. "But I go one better, auntie," twined the pretty girl. "Do you see this tiny bottle?" "Yes. Does it contain perfume?" "No; it contains acid. I test the engagement ring."

#### Not Very Funny.

"I did my best to be entertaining," said the young man in a voice of sorrow. "Did you succeed?" "I'm afraid not. I recited Hamlet's soliloquy. She looked at me reproachfully for several seconds and then exclaimed, 'I don't think that's very funny.'" --London Telegraph.

#### His Conscience.

"He's forever prating about what his conscience tells him. What does his conscience tell him, anyway?" "Apparently it usually tells him what awful sinners his neighbors are." --Catholic Standard and Times.

#### Where She Gets Her Ideal.

She--I wonder if you are just the kind of man I want. He--What kind of man do you want? She--I can hardly describe him to you. He--Don't try. What's the name of the book?--St. Louis Post-Dispatch.

#### To Hold Him.

Nan--That's a beautiful solitaire Dick gave you. I wonder if you know what a fickle young man he is? Fanny--I don't know. I'll ask him to give me such an expensive one. --Chicago Tribune.

#### A Bad Break.

"Our credit man made a bad break yesterday." "What was it?" "He told a dumb man that his word was as good as his bond." --Detroit Free Press.

### Making More Than a Living

Nearly every man who works steadily makes more than a living. During these slow times the men who have saved something appreciate what it is to have something laid away for a rainy day. A few cents a day soon counts up, and when savings are placed in a bank at a tidy interest the sum soon grows to proportions that make it a safeguard against want when work is not plentiful. Figure up how much more than a living you are making now, and place the difference in this bank. Four per cent. interest paid in savings department.
